

***Physician Wellness Network
at Roseville Health & Wellness Center***

The Roseville Health & Wellness Center is pleased to announce a new program designed specifically to streamline the referral process. The Physician Wellness Network (PWN) allows your patients a seamless transition from medical office to wellness center. Your office will be assigned your own personal wellness concierge who will meet your referrals and guide the patient to the proper program at the Wellness Center.

This PWN will give the physician the assurance that the patient will be placed in the right program at the Wellness Center. There are times when both physicians and patients can be overwhelmed with the amount of choices and programs offered at the Wellness Center, the concierge will alleviate confusion acting as a bridge between the physician office and Wellness Center.

Programs specific to: arthritis, seniors, joint-replacement, weight loss, medical weight loss, registered dietician, diabetes, physical therapy, warm water aquatics, Tai Chi, Yoga, Fibromyalgia, massage, cranial sacral massage, pre/post natal exercise, Pilates, dance, athletic training, fall prevention, cancer well-fit, etc. will be discussed with the patient when they meet their personal wellness concierge. Physician recommendations or restrictions will be discussed and implemented at the initial consultation.

If you are interested in learning more about the PWN please respond via email to jeffderaps@msn.com or call 916-677-1200 (Lisa Marrero) or fax this form to 916-677-1214 and a Wellness Center representative will contact you. We look forward to continuing to serve your patients and improving the referral process thru the PWN. Thank you for your time and consideration.
